

LEWIS COUNTY TREE FARMS

Data Source

A list of Christmas Tree growers with zip codes in Lewis County was obtained from the Northwest Christmas Tree Association. The list contained approximately 40 growers, a few were located outside county limits and a few were located within city limits, and were therefore not mapped. The majority of the growers were listed by PO Box, but the farms were located by searching the parcel database by the owner's last name and viewing the aerial photo. It is possible that there are additional growers that are not listed with the Northwest Christmas Tree Association.

Locations

Most of the tree farms are located towards the center of the county in the proximity of I-5 and HWY 12 and 516.

Zoning

Most of the tree farms are located in the RDD zone. A few are located in or adjacent to the 2007 ARL zone.

Land Use (per County Assessor)

Of the 28 tree farm parcels identified, 7 are identified as single family, 8 are identified as forestry uses, and the other 13 are identified as agricultural uses.

Soils

The majority of the tree farms are located in areas of prime farmlands and farmland of statewide importance.

Size

These parcels range in size from one acre to 40 acres.

2007 ARL Zone

Some of the tree farms are located adjacent to the 2007 ARL zone.
